- Wood Spacers, the Smaller the Better- No Cardboard Spacers
- Solvent resistant Epoxy Setting
- Aluminum Insert for Extra Strength
- Form Chisel for Better Brush Out and Cutting In
- Bent Trimming For Better Cutting In
- Tapered Shaping For Better Control When Trimming
- Tapered Keepers For Better holding The Shape of the Brush

ANATOMY OF AN *ArroWorthy* ROLLER

Professionally Designed, Quality Materials.
It's what makes ArroWorthy Brushes
Second to None.

Choose the Best Synthetic Roller Cover

- Reinforced Polypropylene Core.
- Bevel trimming eliminates paint dumping.
- Excellent Paint Pick up & Release.
- For Smooth to Rough Surfaces.
- Interior & Exterior Applications.
- Shed Resistant Fibers.

ArroWorthy Pro-Line of paint roller covers are a premium line of synthetic covers that are ideal for delivering excellent results when painting wall, floors, doors, trim or ceilings. Our Pro-Line of roller covers employ exclusive technology which enable them to pick up and hold more coatings to the surface than traditional roller covers. Engineered to be used for interior or exterior applications, and for today's latex or oil based formulations.

ArroWorthy has been in business since 1962. Although a more diverse and larger company than it once was, the company's emphasis is still placed on three important principles. The very same principles on which the company was founded:

1. Always use the very best materials to manufacture a quality product
2. Price competitively
3. Provide good service and stand behind the products

In its early years, the company manufactured the very best handmade lambskin roller covers. As the company continued to grow, it expanded into synthetic roller covers spiral wound on various cores phenolic, plastic & closed cores system.

Today, ArroWorthy is one of a select group of companies able to manufacture synthetic roller covers on a polypropylene core, which are 100% solvent resistant. Polypropylene is proven to be a more solvent resistant resin than phenolic & PVC.

We at ArroWorthy were the first to develop new lines of professional brushes featuring a new class of filament/technology such as "NYLYN" designed and proven to apply Today's Paints & Stains better.

- Finultra – Nylyn/Polyester blend
- Rembrandt – Nylyn/Polyester blend
- Red Frost – HGPolyester/Nylon blend
- Pro Tradesman – 100% Polyester

We at ArroWorthy were also the first to introduce the Microfiber roller products in the North American market. The ArroWorthy Microfiber roller cover has been embraced by the professional contractor as the everyday synthetic roller cover to use for applying Today's Paints & Stains. ArroWorthy is the only company producing Microfiber roller covers in over 75 SKU's and 5 different nap heights.

Using new equipment and special finishing techniques, ArroWorthy has crafted a full line of superior painting tools with which to apply Today's Coatings.

Our company has now expanded with 4 U.S. manufacturing facilities that give us the flexibility to ship nation-wide and internationally in a prompt, efficient manner. This is coupled with an organization of sales persons who provide excellent service and programs customized to fit the individual store's needs.

We want to thank our existing customers for all their support over the years. For those of you that are new customers, we would like to welcome you into the ArroWorthy family. We hope you will be satisfied and continue to grow with us for many years to come.

Please visit our new web site at www.arroworthy.com for updated information on new product launches and upcoming shows.

Lamdel Weave

- The Lamdel Weave fiber is made using an exclusive NYLYN™ polyester technology that enables the material to pick up, hold and deliver more coating to the surface than traditional roller covers. Engineered to be used for interior or exterior applications, and for today's latex or oil formulations. Solvent resistant core (SRC).

4'' Reach N' Paint - RS106

- Unlike anything in the industry today! Great for hard to reach areas and many other odd jobs. Fits most standard mini rollers, foam, fabric, flock and tight spot style covers.
- Great for railings, radiators, wrought iron and hard to reach trim areas. The curve of the frame allows for easy dipping in any standard tray, paint bucket or pail.

Barracuda Roller Frames

A professional roller frame manufactured to deliver the ultimate results. The mini frames feature a non slip ergonomic grip. Well balanced, lightweight and durable with a 5/16" heavy duty chrome shank, available in 7", 9", 14" and adjustable 12-18".

Finultra Brushes

The flagship professional brush of the ArroWorthy line utilizing the best-in-class handcrafted construction with advanced NYLYN™ technology that allows for exceptional paint pick-up, hold and release. The filaments blend consists of 100% solid round tapered filaments, providing longer wear, maximum resiliency, easier & faster clean-up.

Glossdel Plus Roller Covers

ArroWorthy Pro-Line Glossdel Plus Paint Roller Covers are exceptional quality lintless roller covers engineered for painting walls, floors, doors, trim or ceilings. The Glossdel Plus series is perfect for interior or exterior applications and was developed to pick up, hold and release more of today's paints & stains in a faster and more efficient manner.

Lamdel Weave Roller Covers

ArroWorthy Pro-Line Lamdel Paint Roller Covers are a premium line of synthetic covers that are ideal for delivering excellent results when painting walls, floors trim or ceilings. The Lamdel fiber is made using an exclusive NYLYN™ polyester technology that enables the material to pick up, hold and release more coating to the surface than traditional roller covers.
